Measure the artwork and determine how much "Z" above the top of your piece. Any artwork with a thin border should be hung 12" above the top of the frame. Any artwork with a thick border should be hung 18" above the top of the frame. This is to ensure the eye can see the top of the artwork. 2. Make sure the artwork is clean and has no dust or debris. This is to ensure the artwork hangs straight and looks good. 3. Always measure your wall or an angle. You're hanging a large single piece of artwork, you want to make sure it's straight and level. Measure the height of the artwork and the height of the wall. Measure the distance from the center of the artwork to the center of the wall. Measure the distance from the center of the artwork to the center of the wall. 4. The center of the artwork should be at average height. When you hang your artwork, you should be holding the artwork straight, and slightly back. This is to ensure the artwork hangs straight and looks good. 5. If hanging a single picture, measure where you want it to go and then measure one of the corners. Measure from top to bottom. Measure from left to right. Measure from corner to corner. Measure the distance from the center of the artwork to the center of the wall. Measure the distance from the center of the artwork to the center of the wall.
